Microsoft and Dell will give overviews
of their new products focussing on:

- ▶ Windows7, Windows Server 2008R2 , Exchange 2010
- ▶ Microsoft in the Cloud – Microsoft's new online services
- ▶ Dell's Enterprise Computing Solutions

There will also be a chance to put your questions to the experts
and get practical input on the choices your organisation faces.

This is an **exclusive but free event for 3rd sector organisations**
and demand is likely to be high.
